civil action NO. 3:05-CV-919-T

V.

*

*

Tommy THREAT, et al.,
Defendants

*

*

On October 5th 2005 the court ordered the defendants to answer to the charges set forth by the plaintiff.

The Defendants were given 40 days in wish to do so.

The plaintiff has recieved no answer to his charges as the court ordered nor has he recieved a motion or order for an extention of time.

The plaintiff has recieved nothing through the U.S. mail or any other agency pertaining to this order from the courts or the defendants lawyer who as yet is unidentified to the plaintiff.

If an answer has been to the court it has not been sent or rather the plaintiff has not recieved any

2 of 5

document which pertains to the court order for answer to charges.

The plaintiff respectfully asks the court to take measures against the defendants to get them in compliance to the court order.

Plaintiff would also like to note to the court that he has been put into segregation for no purpose and believes the defendants have withheld his mail in order for him to be late on court filing of documents.

Also the plaintiff is indigent and has no money to buy stamps in order to ~~the~~ mail any orders or motions.

In segregation he is not in contact with other inmates and can borrow no stamps.

Plaintiff feels this is a conspiracy to deny him of his chance to submit to the court documents detrimental to his court case and ask the court to take action against the defendants.

Plaintiff would also have the court know that he has only been allowed access to the law library one time even though he has repeatedly requested to use the legal books. And then only for

3 of 3

a hour with is a very short time to do the research necessary for his case.

Plaintiff would also inform the court that he is unable to partake in the mandatory electron filing system. He has access to no computer.
